About Conference

The International Conference on Intellectual Research in Engineering, Science, and Management (ICIRESM 2026) is a premier international academic conference dedicated to fostering innovation, interdisciplinary collaboration, and the advancement of research across engineering, science, and management. Bringing together academicians, researchers, scientists, industry professionals, and students from around the globe, the conference provides a vibrant platform for the exchange of ideas, research findings, and emerging technologies.

Organized by AVSD Groups, a non-profit organization committed to promoting academic and research excellence since 2009, “The International Conference on Intellectual Research in Engineering, Science, and Management (ICIRESM 2026)” was held virtually on May 29, 2026. The conference aims to encourage meaningful discussions on contemporary challenges, technological advancements, and innovative solutions that drive scientific and industrial progress.

Through keynote addresses, technical sessions, paper presentations, and interactive discussions, The International Conference on Intellectual Research in Engineering, Science, and Management (ICIRESM 2026) offers participants valuable opportunities to present their research, connect with international experts, establish collaborative partnerships, and gain insights into the latest developments in engineering, applied sciences, and management. By promoting interdisciplinary knowledge sharing and global networking, the conference seeks to contribute to academic excellence, sustainable innovation, and real-world impact across diverse fields of study.
